Technical Features (Band width 30 mm)

Power Supply:	12 V DC 1200 mA built in battery (recharger included)
Capacity:	Max. 3,0 litres/oil pr. hour
Max temp.:	50°C / 122°F (bath temperature)
Dimensions & weight:	180 x 130 x 120 mm · 1,10 kg.
Reservoir capacity:	0,6 litres
Band lengths (mm.):	400 – 2000 mm (100 mm interval). Special requests for bands can of course be made.

- *Mobile skimmer! Probably the most practical skimmer on the market.*
- *Keep your machine tool coolant and lubricants clean*
- *Avoid infections from dirty tramp oils*
- *Longer lasting tools/filters*
- *Cost saving equipment*
- *Tests have proven our oil skimmers are capable of removing more than 99% of the surface oil!*
- *Beautiful Danish design – superb quality!*

Skim Portable Mini is a mobile oil skimmer, which you can move from one machine to another, where you wish to remove tramp oil.

Skim Mini Portable has a built in battery and reservoir, so it is not necessary with any connections at all. All what you have to do is to place the oil skimmer on the edge of the reservoir, then press the on/off switch, and the oil-removing process will instantly begin.

The oil skimmers own built-in reservoir has a capacity big enough to keep the tramp oil away from the coolant fluid for one or two machine tool.

If you should forget to empty the oil skimmers reservoir no harm is done, because the oil there isn't space for will just return to the tank. Isn't that easy!?

Do not use this skimmer in strong acid or alkalics (we advise to keep in between 5 - 9 pH)
